

THE ROADMAP

Pension Plan token

The Pension Plan token was launched on the Ethereum network on the 4th of October 2021 and moved to the AVAX blockchain 2 years later.

It has the newest technology of coding, which allows high redistribution of 7 % to its holders in AVAX.

Furthermore the Pension Plan contributes with 1 % towards clinical research. Buybacks of 1% shrinks the supply constantly.

This token is perfect for passive income and the goal of the project is to create a platform, which would allow holders to pay/shop directly using their debit card with redistributed AVAX which is redistributed daily.

Why should you invest in the Pension Plan token?

1. Pension Plan uses a system of redistribution from all transactions

Pension Plan uses a system of redistribution from all transactions. This deduction of 10 % from every transaction makes it very hard for short trading or bot's engagements. Therefore, investors understand, that this token is made for long-term holding.

2. Doxxed devs constantly bring more investors

It is always work for the developers to constantly bring more investors to Pension Plan. Reflections cause an increase in token price and will accumulate in your Crypto wallet. It is easy getting used to reflection after reflection, paid in AVAX. Not only will this encourage holders, growth and stability, you will want to keep adding more Pension Plan to receive even more AVAX in each redistribution.

3. Burned forever and liquidity locked

Furthermore, we improved the code of Pension Plan by implementing a 1 % buyback, which burns the tokens forever and decreases the circulating supply. Constantly shrinking the supply should have positive impact on the Pension Plan token price over time.

Redistribution of the 10 %

The code of Pension plan is unique and was built by our team. You will not find anything with the same functionalities. This token works best, when you hold it in your wallet, which guarantees you receiving the redistribution. The redistribution is initiated, when 100 AVAX is collected from all transactions.

- 7 %** reflection to holders in AVAX
- 1 %** sent to a marketing wallet in AVAX, which is used for advertising purposes and payments for listing on diferent CEXs
- 1 %** sent to cancer research AVAX
- 1 %** of Pension Plan tokens are sent to a burn address, which removes this liquidity from circulating supply forever

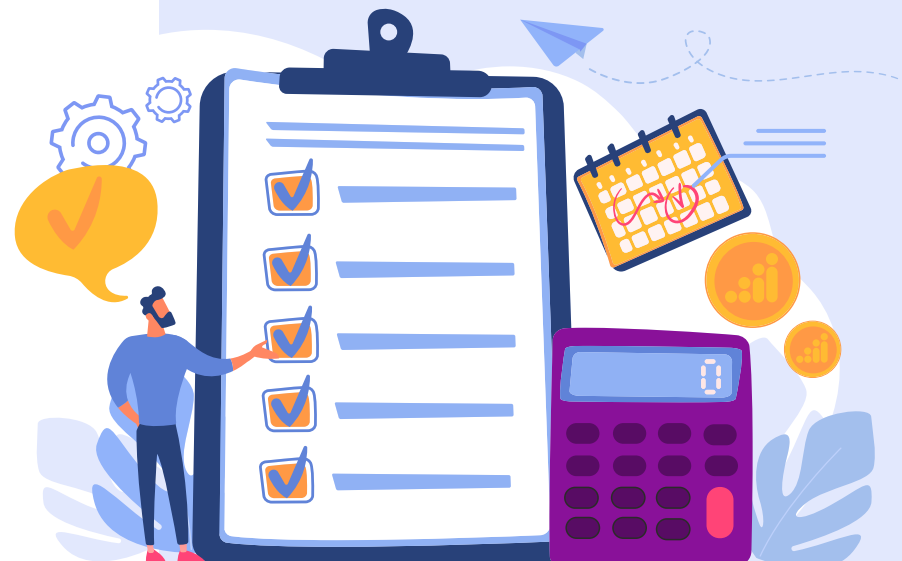

10% TOTALS

Audit

Pension Plan token is undergoing audit from TechRate. When the results of the audit will be known, it will be published on:

Pension Plan - Roadmap

This roadmap is an interactive plan, which highlights the milestones, that we want to achieve.

Phase 1 Launch

In progress

- ✓ Pension Plan Coin launch
- ✓ Website pensionplan.finance launch
- ✓ Etherscan social information update
- ✓ Social media registration (Facebook, Instagram, Telegram, Twitter)

Phase 2 Community

In progress

- ✓ Create and publish memes
- ✓ Collaborate with community on social media
- ✓ Giveaway and competition for best community promo
- ✓ First donation for Cancer research

Phase 3 Social media

In progress

- ✓ Coingecko.com registration
- ✓ Publish article at Yahoo Finance and MarketWatch
- ✓ Project reviewed by famous influencers
- ✦ Launch Youtube channel

Phase 4 Exchanges

Pending

- ✦ Publish full audit of Pension Plan Coin
- ✦ Get Pension Plan Coin listed on exchanges (Hotbit, IndoEx)
- ✦ Allow staking system on exchanges
- ✦ Apply for Coinmarketcap.com listing

Phase 5 Ecosystem

Pending

- ✦ Continue donations for Cancer research
- ✦ Get Pension Plan Coin listed on Hachiko Inu Exchange
- ✦ Holders can pay with their 7% reflection with debit card
- ✦ Complete all steps on this roadmap and create a new roadmap

The First Donation
